Let’s Start Here

Noor Solar Energy Services was established in the Sultanate of Oman with the mission to drive the transition towards a more sustainable future.

With a strong commitment to offering cutting-edge solar technologies, we assist individuals and businesses in reducing costs and reliance on conventional energy sources.

At Noor, we believe that the shift to renewable energy is not merely a choice but a responsibility towards the environment and future generations.

We are dedicated to reinforcing our position as a leader in renewable energy solutions, striving to improve quality of life through environmentally-friendly alternatives that contribute to reducing carbon emissions and advancing sustainable development.

Join us in being a part of this transformation, as we work together to create a brighter and more sustainable future.

THE INTRODUCTION

Noor Solar Energy Services LLC, is a pioneering company providing comprehensive, sustainable solar energy solutions across various sectors, including residential, commercial, and industrial.

We view solar energy not just as an alternative, but as the future we need for a cleaner environment and a more sustainable way of life. At Noor, we design and implement solar energy projects to the highest standards of quality and innovation in Sultanate of Oman.

Our services span from consultancy to installation, operation, and maintenance, ensuring our clients maximise the benefits of their clean energy investments.

Our vision focuses on promoting renewable energy and reducing reliance on traditional, environmentally harmful sources to contribute to building a sustainable future.

CEO MESSAGE

Dear Partners and Clients,

It is with great pleasure that I welcome you to Noor Solar Energy Services, where we collaborate to build a cleaner and more sustainable future. Our role in this era extends beyond providing traditional energy solutions; we firmly believe that solar energy is the cornerstone of a prosperous future, one that is driven by clean, renewable sources.

At Noor, we continuously strive to offer innovative, cost-effective solar energy solutions that cater to the diverse needs of individuals, businesses, and communities. By adhering to the highest standards of quality and sustainability, our aim is to make a positive impact by reducing carbon footprints and reliance on fossil fuels, thereby protecting the environment and enhancing the well-being of society.

We take pride in being a strategic partner in realising the Sultanate of Oman's Vision 2040, which seeks to expand the use of renewable energy and implement sustainable development principles.

Thank you for your trust and support of Noor Solar Energy Services. Together, we move forward in the journey towards clean energy, working to create a better world for future generations.

Kind regards,
Noor Al-Athameen
CEO, Noor Solar Energy Services LLC

COMPANY VISION

Noor Solar Energy Services aims to lead the way in providing sustainable, efficient energy solutions that contribute to the achievement of Oman’s Vision 2040 and promote environmental sustainability. We are confident in our ability to make a transformative impact on Oman’s energy landscape by delivering high-quality products and services that foster energy conservation and raise environmental awareness.

OUR MISSION

Through innovation and advanced technology, we provide reliable, integrated solar energy systems that reduce reliance on traditional energy sources, support economic growth, and preserve the environment. We are committed to offering services that keep pace with the developments in renewable energy, in alignment with Oman’s carbon neutrality goals and efforts to reduce pollution from fossil fuel energy production.

OUR VALUES

NSES Company in the Sultanate is committed to providing sustainable and responsible solar energy solutions, driving the transition toward a cleaner and more sustainable future. Our values are reflected in:

Sustainability

We are dedicated to promoting renewable energy as a key solution to environmental challenges and reducing carbon footprints.

Innovation

We strive to provide the latest technological solutions to ensure high efficiency and exceptional results.

Quality

From design through to implementation and maintenance, quality is at the forefront of our priorities.

Transparency

We uphold clarity and integrity in all our interactions, building long-lasting relationships with our partners.

Social Responsibility

We contribute to the development of Omani society through supporting environmental initiatives and raising awareness of renewable energy.

Collaboration

We believe that collaboration with clients, partners, and local communities is key to our success.

Project Monitoring

We provide ongoing technical support to ensure the systems’ efficiency and optimal performance for our clients.

OUR SERVICES

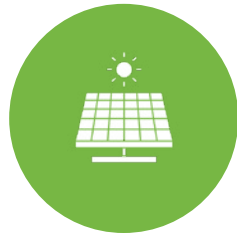

Solar Energy System Consultancy

We offer expert consultancy services, leveraging the latest technological advancements to meet the specific needs of projects.

Solar System Design

We provide comprehensive design solutions that cater to residential, commercial, and industrial requirements.

Solar Carpark Design & Installation

Our innovative service provides thermal-regulated carpark solutions.

Educational Projects Design

We design modern scientific projects for educational institutions.

Solar System Installation

We manage the entire installation process according to the highest engineering standards.

Solar System Maintenance

We offer both routine and urgent maintenance services to ensure system efficiency and performance.

Desert-Adapted Solar Systems

We design and implement solar projects tailored to desert environments, ensuring maximum efficiency.

Remote Monitoring of Solar Systems

We offer daily performance monitoring and instant support through online platforms.

Innovative Solar Solutions

We stay at the forefront of solar technology, providing cutting-edge solutions to meet the growing demand for renewable energy.

OUR
TEAM

Hatem Al Qasbi
Senior PV Engineer

Serves as the lead solar energy engineer and supervises all stages of project implementation. He plays a pivotal role in the design, execution, and monitoring of various projects. With extensive experience managing numerous projects within the Sultanate of Oman, he ensures full compliance with all safety standards and regulatory requirements applicable in the country. His effective leadership and supervision significantly contribute to raising awareness about solar energy and delivering sustainable, high-quality solutions.

Ahmed
Junior PV Expert Engineer

Specialises in system design, quantitative analysis, and supervising the installation of solar energy systems while ensuring smooth project workflows. With extensive experience gained from designing and executing multiple projects outside the Sultanate of Oman, he stands out as a highly skilled professional in the field.

Engineer Ali
Site Engineer and Field Leader

Is an expert in on-site project execution, meticulously overseeing the workforce's activities. He brings extensive expertise from managing and implementing diverse projects of varying scales outside the Sultanate, having worked with leading global solar energy companies. Renowned for his sharp field insights, he ensures efficient and high-quality project execution.

KEY MILESTONES

Noor Solar Energy Services boasts a highly skilled team with extensive experience in executing numerous projects both within and outside of Oman. Our competencies and unique capabilities position us as leaders in the solar energy sector. We aim to provide integrated services that efficiently meet the needs of our clients, making us a trusted partner in advancing the use of solar energy and achieving sustainable development goals across the Sultanate.

In Conclusion

Noor Solar Energy Services is committed to being a reliable partner in achieving the Sultanate of Oman's Vision 2040 and building a sustainable future that guarantees a cleaner, more resilient environment for all
